Chief, Intelligence Information Staff

29 January 1957

ATTN : 
THRU : Chief, Industrial Division
Chief, Electrical Equipment Branch

Request for Requirement, ORR 10492

This office requests the following information concerning any Soviet Bloc radars known to the source and the production of radar equipment at plants known to the source.

1. Names of sets and any alternate names or cover names used to designate the sets.
2. Types of electron tubes used in the sets.
3. Description of the sets along with operating and electrical characteristics.
4. Names and locations of manufacturing plants along with prices, production, quantities or data from which production may be estimated such as floor space, number of employees or material inputs.
5. Organizations or countries using the equipment.
